Details of classified product

General

This classification report defines the classification for the coaxial cable, in accordance with the procedures given in BS EN 13501-6:2014.

Product description

The coaxial cable family, RG6 - LSZH BC, is as described in Sample details below.

Traceability

The test samples submitted by the manufacture and received on 24 May 2017.

Classification and field of application

BASEC Report No: LCPR1413-25 Classification Issue 2

Reference of classification

This classification has been carried out in accordance with BS EN 13501-6:2014 **Classification**

The coaxial cable in relation to fire behaviour is classified:

E_{ca}

The format of the reaction to fire classification for electric cables is:

Fire Behaviour		Smoke Production			Flaming Droplets			Acidity	
E_{ca}	-	-	-	,	-	-	,	-	-

Reaction to fire classification: E_{ca}

The classification assigned to the products in this report is appropriate to a declaration of conformity by the manufacturer within the context of system 3 attestation of conformity and CE marking under the Construction Products Regulation.

The test laboratory has, therefore, played no part in sampling the product for the test, although it holds appropriate references, supplied by the manufacturer, to provide for traceability of samples tested.

Field of application

This classification is valid for the coaxial cable described in 'Sample details' and listed below

BASEC Report No: LCPR1413-25 Classification Issue 2

Brand Name	Cable Identification	Conductor Size	Reaction to Fire Classification
Zircon CU126LSZH	RG6 - LSZH BC	1,02mm ²	E _{ca}

This classification is valid for all end-use applications

Limitations

This classification will be valid whilst;

- The test methods remain unchanged,
- The product standard or technical approval remains unchanged,
- Constructional or material modifications do not exceed limits of the field of application.

The manufacturer has made a declaration, which is held on file, which the product placed in the marketplace, named in product description section of this report and produced at the manufacturing plant listed therein, is exactly the same as the product that was tested.

This classification document does not represent type approval or certification of the product.
